IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions
Altered vision**

**Eye or muscle twitching
Involuntary movements**

**Loss of awareness
Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Officials are taking the statements ... and the threat ... with the most extreme seriousness.

GOOD GUYS

MEGA MAN

This outstanding example of the robot race was developed as a kind household robot that lived a serene existence working as Dr. Light's assistant. However, in order to stop evil Dr. Wile's plan of world conquest, this peaceful metal man requested Dr. Light to modify him into a battle robot.

BASS

Bass is a "special Wile's numbered" war robot, one of a battalion created by Dr. Wile's. His life's work is to defeat Mega Man with his own hands. But, in order to defeat King, the self-proclaimed "world's strongest robot," Bass had to make peace with Mega Man ... temporarily.

RUSH

A support robot that Dr. Light made for Mega Man. Possessing an excellent sense of smell, Rush is outstanding at sniffing out hidden items.

DR. THOMAS LIGHT

Number one in Robot Engineering and Mega Man's creator. He goes all out to create robots that help mankind in peaceful ways. Whenever he sees someone in trouble he's the type of guy who just can't stand by and watch—he figures out how to help!

ROLL

An assisting engineer robot created by Dr. Light, Roll is loaded with practical advice for Mega Man and Bass. She's always ready to assist the mission with helpful hints.

LIGHTOTT

An assistant robot that helps Dr. Light with his research and in developing power-up parts.

EDDY

An item transport robot that Dr. Light created. It now has the ability to fly and can transport items rapidly.

BEAT

A support robot bird that Dr. Kossack made for Mega Man as a present. It is currently being modified to perform crash attacks as well as transport items.

GOSPEL

A support robot that moves with Bass. Gospel can transform as well as form one unit with Bass.

BLUES

Dr. Light's first attempt at making a humanoid robot. He moves of his own free will. He attempted to foil King's plot but was defeated.

BAD GUYS

KING

A robot that plans to take over the world and create a total robot supremacy. He stole the robot creation data from Dr. Light and Dr. Wily and used it to generate an army of evil robots. He likes chess, but considers himself so good that no one can give him an even match.

WILEY

Albert W. Wily was Dr. Light's classmate at robot engineering school, and has become his rival in professional life. He became involved in creating evil robots in his bid for world domination. Wily was attacked while developing a new fortress and now lives in Dr. Light's research center.

BOSSSES
KCN 001
DYNAMO MAN

This robot used to guide school kids on field trips through the power plant. But when King made him create an internal power generator that emitted a massive energy force field, no one could get close to him. After that Dynamo Man began to resent everyone!

Special Weapon - LIGHTNING BOLT

Fires off lightning, damaging all enemies in the area.

KCN 002
COLD MAN

King modified a sample of dinosaur DNA from a special freezer unit in Dr. Light's research center, turning it into a guardian robot. The center of this unit is always kept at absolute zero. It has the power to instantly freeze a target. Due to its low body temperature, it has a slow rate of movement.

Special Weapon - ICE WALL

Creates an ice wall that it pushes toward the opponent or rides to move at a more rapid speed.

KCN 003
GROUND MAN

Developed to excavate ruins, Ground Man is the strongest robot of the King numbered series. Though always motivated to achieve his goals, he hardly ever speaks and has no feelings. He sometimes hoards treasure that he finds for his own personal collection, without telling King.

**Special Attack -
SPREAD DRILL**

Every time you press the B Button, Ground Man's shot splits into tiny drills, effective against heavily armored enemies.

KCN 004
PIRATE MAN

Created to attack cargo vessels on the open sea, Pirate Man will use any method to achieve his goal. Recently several ships have been blown open and their cargos stolen. It is rumored that Pirate Man was behind these events. It's also rumored that his secret hideout is somewhere at the bottom of the sea.

**Special Weapon -
REMOTE MINE**

A magnetic electric mine that sticks to the enemy. After firing, you can control its vertical movement with the Control Pad. After it attaches to its target, explode it by pressing the B Button.

KCN 005
BURNER MAN

Burner Man was created to destroy the environment! While developing this robot, King discovered a super high temperature gas that shot out fire. Burner Man believed King when he said, "You must burn a forest every day or your self-destruct bomb will explode!"

Special Weapon - WEB BURNER

Shoots out a flame in a wig-wag formation that can burn down anything.

KCN 006
MAGIC MAN

Formerly with the King Army Circus Group, Magic Man enlisted in King's army (he thought it would make him look cool). He is always showing off magic card tricks to other troops, so actually he is considered something of a geek. He puts a lot of effort into researching his magic tricks, but few people think of him as a hard worker.

Special Weapon - MAGIC CARD

He fires cards straight to the right and straight up.

DWN 057
TENGU MAN

An experimental robot developed to artificially generate typhoons, Tengu Man was converted by Dr. Wiley into a battle robot. He enlisted in King's army to wreak revenge on Mega Man for disgracing him in a previous fight. He has undergone modification to make him effective at both close-in and distance fighting.

**Special Weapon -
TENGU BLADE**

His blade fires a vacuum wave toward the enemy. He can slide and dash to perform a dash slash.

DWN 058
ASTRO MAN

This robot was revived using data that King stole from the museum. His main ability is to show planetarium images from a different dimension. He has been reprogrammed to attack, but the programming sometimes fails.

**Special Weapon -
COPY VISION**

He creates a mirror image of himself, that not only attacks but also distracts the enemy.
